 Polypipe

## What is Surestop?

**Surestop** is an easy to use alternative to the traditional brass stopcock, which allows you to turn off your mains water supply at the flick of a switch in case of an emergency.

### Features and benefits

- Manufactured in the UK
- Simple to use
- Reduces the risk of water damage
- Powered by water pressure – no batteries needed and no ongoing costs
- WRAS approved stopcocks

# Choose the **right** **product** for you

We understand every homeowner has different needs. That's why our products have been **designed** to fit your requirements.

## Surestop Stopcock

If you can reach your existing stopcock but wish to replace it with one that is easier to use and more mobile, our standard stopcock is the perfect choice. It uses a simple lockdown button to control the main water, so you won't struggle to turn it off if needed.

## Surestop Remote Stopcock

Brass stopcocks tend to be in the most inaccessible places. Powered by water pressure, Surestop Remote Stopcock can be placed in a location of your choice – up to two metres away from the water supply, be it on a wall or above a work surface.

## Surestop Stopcock MDPE

Did you know that if you live in a new build home, you have a stopcock on the water system's very first point of entry in the home? Our Surestop Stopcock MDPE is designed to replace the existing stopcock, connecting directly to the external blue MDPE pipe and the internal pipe system.

# Installers you can trust

We recommend using one of our **Platinum Installers**. Approved by Polypipe Surestop, each Platinum Installer has undergone **vigorous training** to install our Surestop range correctly and in accordance with our recommendations.

## GUARANTEE

100% of our products are tested and covered by our **two year** parts replacement guarantee

## Thinking of having Surestop Installed?

### Contact us

If you've got any questions about our products – please visit us at [www.surestop.co.uk](http://www.surestop.co.uk) or contact our Customer Service Team on 0845 643 1800.

### Speak to an installer

Contact your nearest Platinum Installer [www.surestop.co.uk/find-an-installer](http://www.surestop.co.uk/find-an-installer) to request a quote or for more information.

## Don't take the risk – take care of **your home**

Our home is our most valuable possession – providing us with comfort and a place to create lasting memories. That's why it's important to do all we can to protect it.

Each year, **1 in 8 homes\*** experiences water damage. In many cases, the scale of damage is severe as homeowners can't shut off the water supply due to an inaccessible or hard to locate stopcock.

We provide the solution to this with our Surestop Stopcock range.

Our range offers a **fast and effective** method to turn off your water supply at the first sign of damage. So you can live with the comfort of knowing you can protect your home at the flick of a switch.
